

## Activity Sheet 5 Lyrics to the “Making Ten” Song

Nine and one, one and nine, for making ten they both work fine.

Eight and two, two and eight, for making ten they both work great.

Seven and three, three and seven, both make ten and not eleven.

Six and four, four and six, for making ten they do the trick.

Five and five you can depend will always end up making ten.

Cause five and five are both the same, together they make our friend and ten is his name.
