

RECYCLE CITY

1. What happened to the environment as a result of people throwing everything into the same big hole in the ground?
2. Who was responsible for paying the costs of the city cleanup?
3. What are your feelings about having the businesses responsible for contaminating the water actually paying for the cleanup?
4. What important lesson did the townspeople learn from the old landfill?
5. What are your thoughts and feelings about Superfund? Do you feel it is helpful and beneficial?
6. Explain the purpose of a landfill.
7. What purpose does the liner in the landfill serve?
8. Why do trucks cover the landfill with soil?
