

Culminating Activity

Observe the effects of mechanical weathering. Record data inside these boxes.

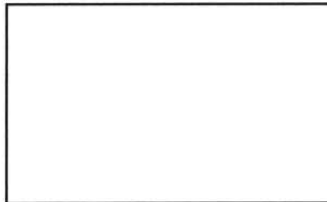

Ice wedging in rock

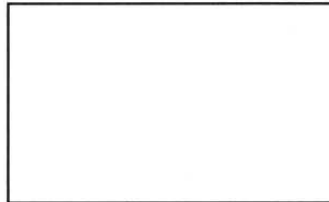

Road damage caused by ice heaving.

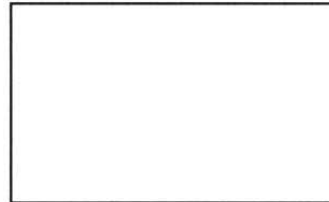

Rocks shattered by frost wedging.

Tree roots widening cracks in rocks.

Moss growing on rock surface.

Tree growth affecting sidewalk and curb.

Which agent is demonstrated most in these six pictures?

Which agent is NOT demonstrated? Why do you think it is not shown here?

Pick one agent, and draw your own original demonstration scene that shows weathering occurring.
