

etvStreamlineSC

For South Carolina Homeschools

ETV StreamlineSC is an exciting, free resource that brings standards-based digital video to every K-12 classroom in South Carolina (including home schools!). The content originates from Discovery Education (*Discovery Education Streaming*), who has an existing library of more than 50,000 video clips and is the leader in multimedia-based learning. There is also South Carolina content from ETV and ITV. In addition to video, schools have access to a high-resolution image library; quiz, assignment and writing prompt builders; black line masters and teachers' guides; and a calendar of events that ties video and image content to important dates in history.

ETV, partnering with the **State Department of Education** and the **K-12 Technology Initiative**, provides this service **FREE** to all public, private and home schools in South Carolina.

How do you get an account?

Send an email to vjallred@scetv.org and sokonek@scetv.org with the following information:

- In the subject line put **Streamline for homeschools**.
- Give us **your name**, the **name of your school** (if you have one), the name of your **accountability organization**, your **address** and the **ages of your children**.

We will send you a passcode and instructions for creating your account.

We are available to do **FREE** workshops for your support group.

If you would like more information email Debbie Jarrett at djarrett@scetv.org. (Debbie is a former teacher and homeschool mom!)
