Browse – look at samples

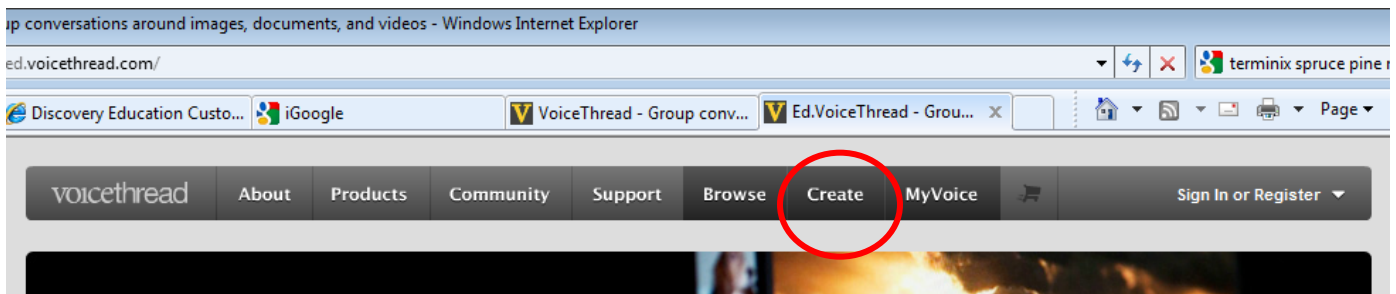

Register – Do you want an account just for you or will this be a class account?

Look to be sure you are **registered as an Educator**.

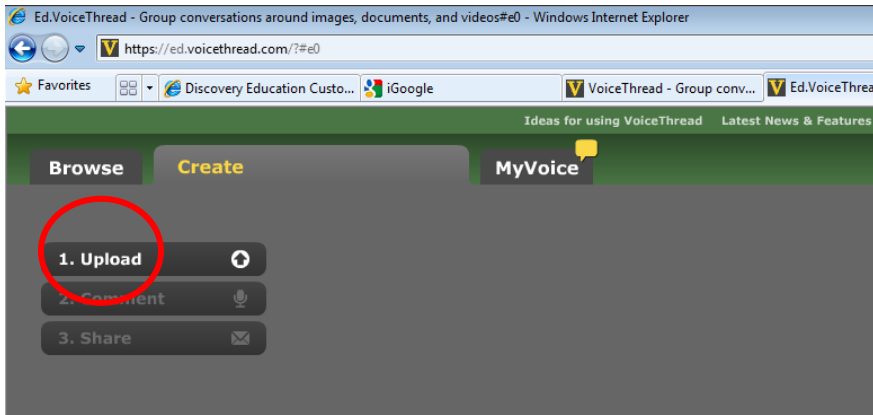

You can click at the bottom under Products and view the K-12 options.

Pricing – FREE or you can pay for a year subscription.

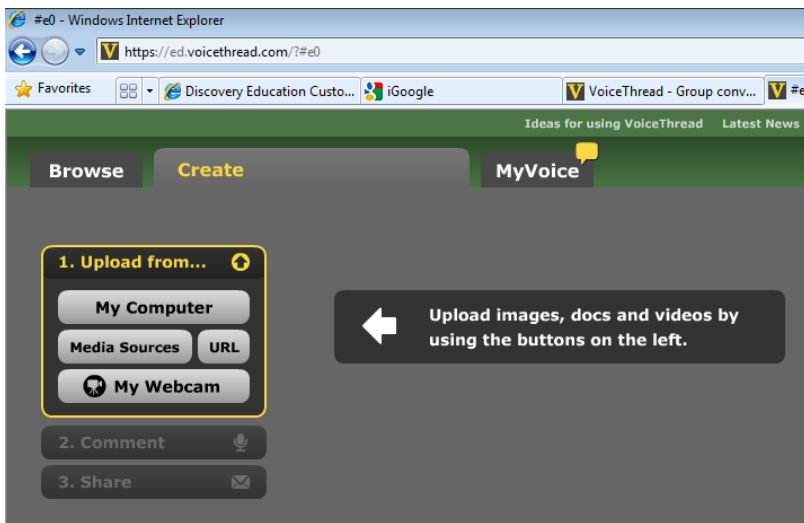

Let's **CREATE!** Click Create at the top.

Step 1: Click Upload images. You may use images from Streamline (Discovery Education) as long as you do not make the final product “public.”

Click the location of your images and upload them.

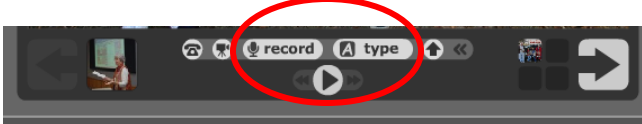

Note: Prior to creating, you may have wanted to make a folder on your computer and drop in a few images just so you will have some to draw from. You will not really be working from this folder so it does not matter where it is located.

Step 2: Adding Comments. Click Comment on the LEFT and then Click comment under your first picture.

Note: You may have to click the Pause/Play button under the picture to keep it from “playing” on to the next frame.

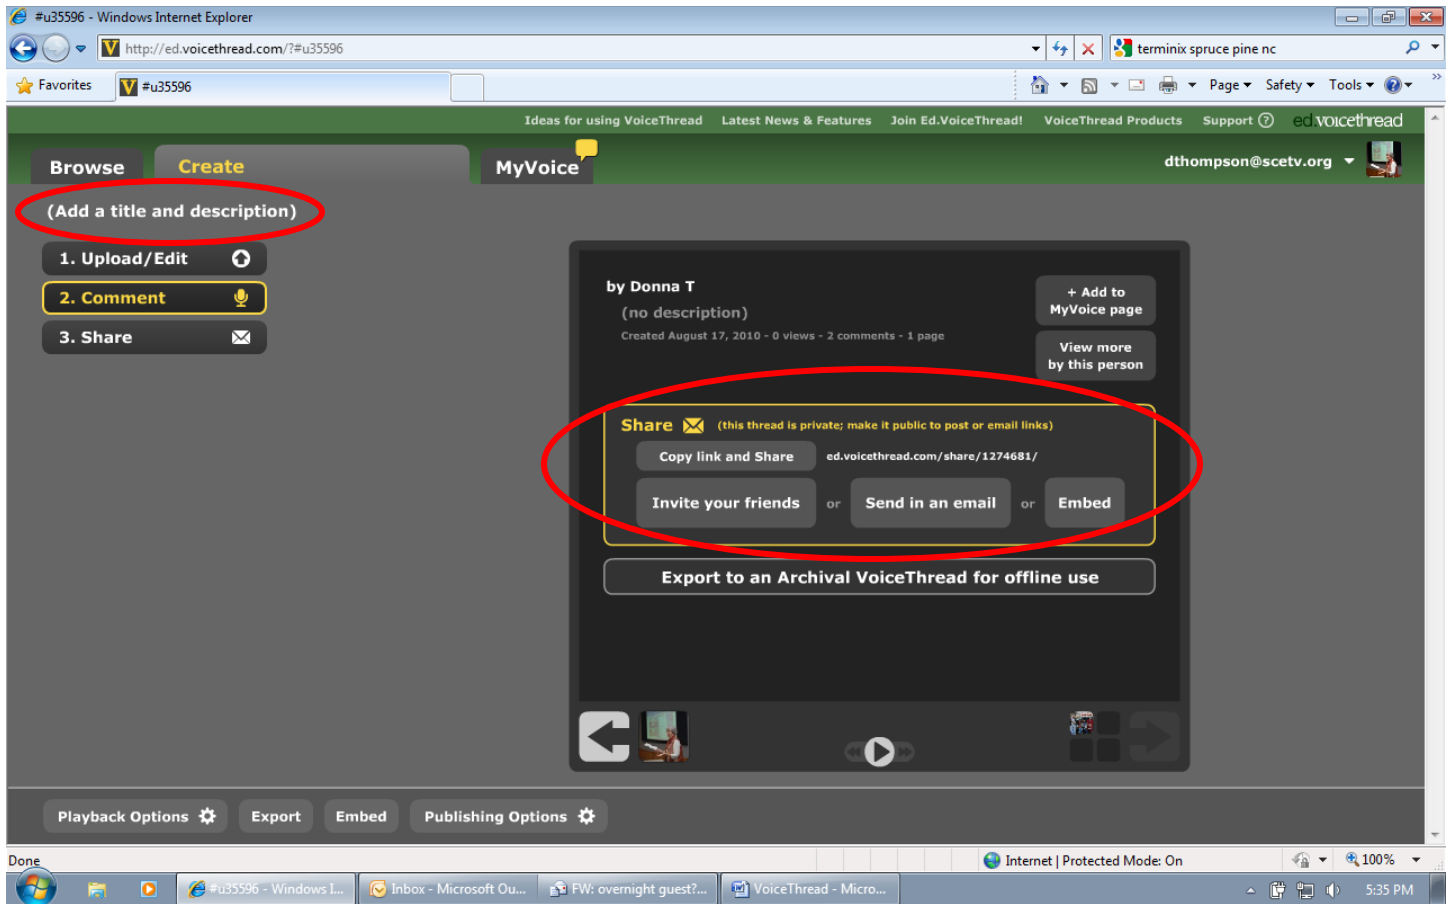

Now you have options for commenting. Let's try “record” and “type.”

Then if you have a webcam, we will try that one.

Note: There is also an option for “calling in with a cell phone” but you only get 3 minutes free so you might not want to try that one just yet.

The **last slide** will look like this.

You can **Copy a Link** to Share with others which you could post on a web page.

You can invite friends, send emails, or even **Embed** this voicethread into your webpage, blog, or wiki.

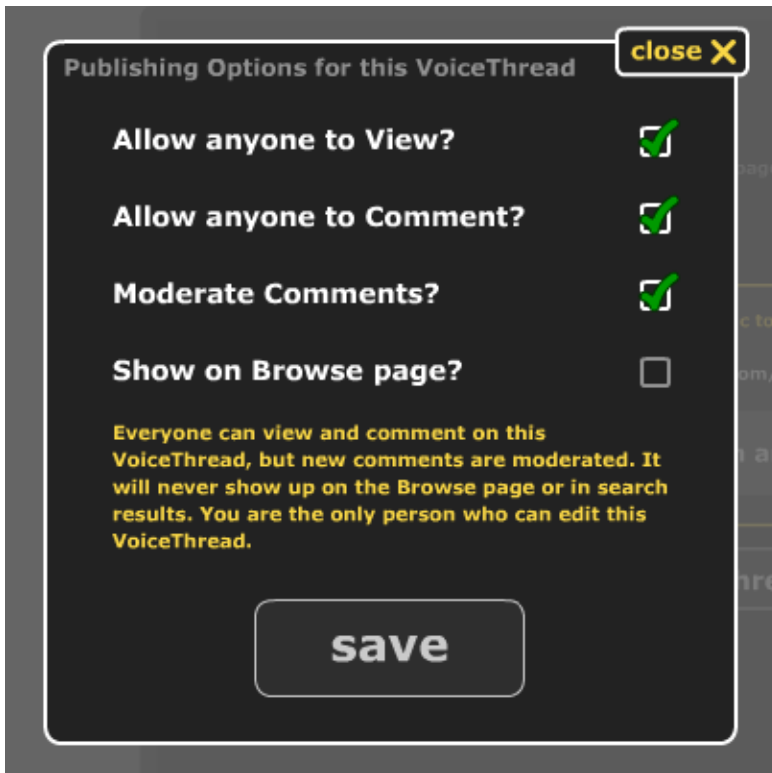

Click on Send Emails and send this to at least two persons seated nearest you.

You can also click on Step 3 for Share.

Note: I believe the Export option might be a premium service.

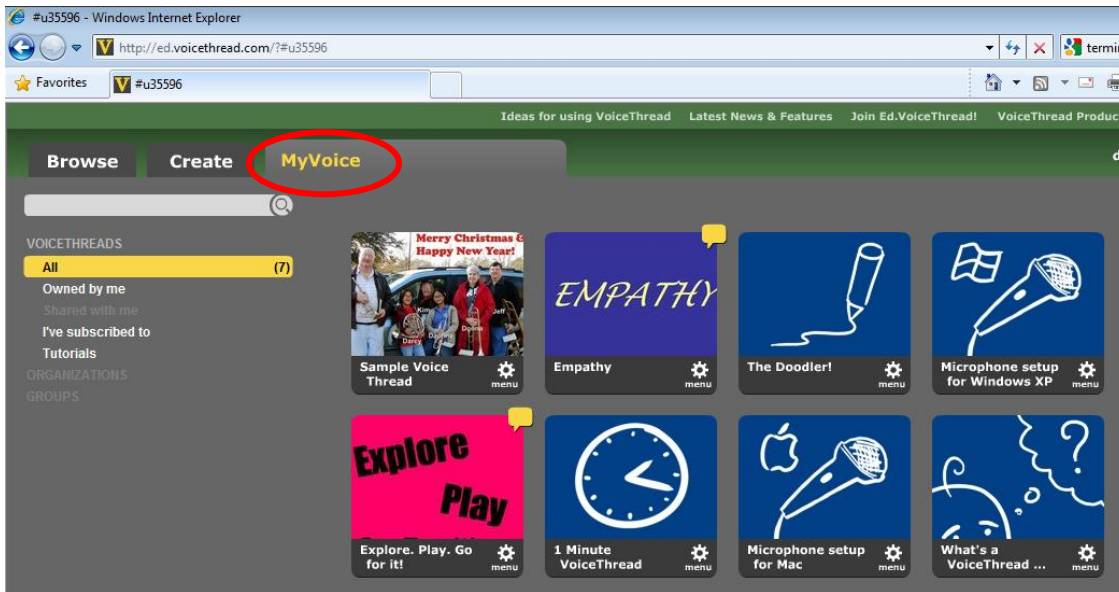

Title and Description: Click on Add a title and description at the top left (above Upload). Save it.

You will want to click on **Publishing Options** at the bottom.

Make your selections and Save.

Now click on **My Voice** and you will see your VoiceThread.

Click on your voicethread to **view** it.

Now open your email and find the two voicethreads those around you sent to you. Play them and add a comment.
