

Training Opportunities

ETV provides these training workshops at no cost to you and at your location.
(We can customize workshops to fit your needs.)

Basic Training - ETV StreamlineSC (Basic Streamline)

Let us help you address the variety of learning styles in your classroom with ETV StreamlineSC. South Carolina teachers have free access to over 9,000 videos, 50,000+ video clips correlated to the SC Standards, as well as songs, sound effects, quizzes, lesson plans, writing prompts and much more. (1.5 hour in lab)

Beyond the Basics (Advanced Streamline)

When asked if you use StreamlineSC, do you say “Yeah, I use it all the time”? In this session you will discover how to search for presentations, songs, writing prompts, lesson plans, the Atlas, Theme Pages, STEM content and how to upload your own content to Streamline. (1.5 hr in the lab)

Streamline “Builders”

Learn how to create a Quiz, Assignment and/or a Writing Prompt in ETV StreamlineSC. You need to have a Streamline (*unitedstreaming*) account and be familiar with Streamline before taking this class. (1 hr in lab)

OnePlaceSC - One User Name, One Password and One Integrated Search

ETV's *OnePlaceSC* allows educators to search quality educational content to assist in focusing on instruction, not managing classroom resources. It contains a TV guide feature displaying all of ETV's satellite and broadcast live programming which can be streamed on-demand, including current Staff Development programs. (30-45 minute presentation or in lab)

Media Share: Sharing Content in StreamlineSC and OnePlaceSC

Media Share allows teachers to upload educator-created content to share across schools, districts, state or even nationally. Come see how you can easily upload videos, PowerPoints, handouts, Notebook lessons, FlipCharts, or anything digital and have it searchable in StreamlineSC and OnePlaceSC. (30-45 minute presentation or in lab)

Ways to Integrate StreamlineSC

When it comes to integrating StreamlineSC into your curriculum, the possibilities are unlimited. Get ideas for ways to insert videos into presentations, use the Closed Captioning feature in Streamline, use images to create narrated slide shows, use Movie Maker to edit videos and much more. This is a showcase of what you can do with video, not a “how to.” (This presentation is a great way to excite teachers about future training.) (45-60 min presentation)

Movie Maker

Windows Movie Maker is free video editing software that is already preloaded on most computers. In this workshop you will learn how to edit StreamlineSC video clips, including importing video and pictures, adding special effects, text, narration and music. (1.5 hr in lab)

It's a snap - create your own instructional videos with Photo Story3! (Digital Storytelling)

Learn how you and your students can use copyright free photos and images from StreamlineSC to create great instructional projects with Microsoft's **free** program Photo Story 3. Sample projects and ideas will be discussed and presented. Bring your own photos on a usb drive, if you would like. (1.5 hr in lab – PhotoStory3 will need to be installed on the computers.)

Using Video Cameras in the Classroom

See how easy it is to use video cameras (Flip, Small Wonder, etc.) to create video for your classroom. Participants will use cameras during this workshop to record and upload the video to their computers. They will use simple video editing tools like Windows Movie Maker or Apple's iMovie to create their own movies. Sample projects and ideas will be discussed and presented. (Cameras will be provided.) (1.5-2 hours in a lab) (The presenter will need to load software to run the cameras.)

School News Programs

Let us help you get started with a news program for your school. We will suggest equipment, help with set-up and delivery and share ideas from other schools across the state. We will work with those in your school involved with taping and distribution. Contact Donna Thompson for this service (dthompson@scetv.org)

Streamline Admin (for those who manage Streamline accounts for their school or district)

Do you need to have access to the Streamline users in your school or district? Learn how to maintain your school's account and run reports for your school or district. (30 minute presentation or 1 hr in a lab) Great for district wide media specialists meetings.

Lights, Cameras, ACTION!

In this session you will learn how to make your own videos for your classroom using PhotoStory3, Movie Maker and digital video cameras. You will learn how to easily combine images, voice narration and music to create great instructional projects with PhotoStory3. Using Windows Movie Maker, you will learn to edit video from StreamlineSC and from your own cameras. Participants will use digital video cameras to record learning taking place in the session and upload to their computers to edit and create their own movies (cameras will be provided for use in the session). (4 hours in a lab) (PhotoStory3 will need to be installed on the computers. The presenter will also need to load software to run the cameras.)

Yeah, I use StreamlineSC

When asked if you use StreamlineSC, do you say "Yeah, I use it all the time"? Come learn all about the ETV services available to educators: OnePlaceSC, Media Share, Knowitall.org, and of course, StreamlineSC. You will discover new places to search for lesson plans, interactive sites, songs, writing prompts and much more. You will learn how to build an online quiz, how to upload your own videos to Streamline, how to embed video in PowerPoint and other ways to integrate video. Bring your headphones and a USB/flash drive. (3-4 hours in a lab)

Full Day with ETV

We can combine any of the above workshops to create a full day of staff development. (6-8 hours in a lab)

Contact Debbie Jarrett (djarrett@scetv.org), Donna Thompson (dthompson@scetv.org) or Brack Clemons (bclemons@scetv.org) for more information or to schedule a workshop.

Knowitall.org

Knowitall.org is ETV's free, web-based multimedia portal featuring a collection of interactive sites for K-12 teachers, parents, and students. You'll find award-winning, animated games and simulations, virtual field trips, research resources, close-up investigations of the environment and much more! This session will introduce you to this valuable educational tool that can enhance learning by allowing children to interact with quality, standards-based information and content. Contact Brack Clemons at bclemons@scetv.org to schedule a Knowitall workshop.
